A BIT ABOUT ME

When it comes to headshots and branding sessions, I take a great amount of pride in capturing your best natural features, your strength, and your essence.

My approach to photography is natural and relationship-oriented; I love to get to know my clients before putting them in front of the lens. I want to hear all about your story - both personal and professional - so I can tell it in light and color.

My goal is to create professional headshot images and more extensive branding sessions that say something meaningful about you!

Are you a business professional? An executive? An actor? A model? A social media influencer? Every type has its unique role to play in showing YOU!

With over 14 years of experience and 7500+ Clients, I feel confident in my ability to craft a series of images that truly say something about who you are and your goals in life.

THE PROCESS

HOW THIS WORKS

**Ready to take a major step in your career and get some
seriously professional headshots?**

It all begins with a free consultation - most Clients prefer a phone call or text, but I'm happy to meet in my studio. I want to hear your thoughts and goals for your session, as well as the purpose of your images so I can recommend options for you.

Once you've decided that Monumental Arts is right for you, your next step is to select a date! You can easily do this by booking online at www.monumentalarts.com -> Schedule then choose Headshots or Branding Sessions. I offer a variety of options to fit your needs, from "I just need a headshot" to a complete portfolio package with multiple outfits and locations. Once you choose your investment level, you'll only see available dates and times, so choose what's best for you!

You can also choose to add a professional makeup artist, additional locations, and multiple outfits - remember, I want this session personalized for you!

During your session, I'll provide expert guidance on posing and lighting, with modern and contemporary looks, as well as traditional settings with a variety of backdrops.

It takes approximately 5 days to get your online gallery up. Why so long? Well, each image posted to your gallery is re-touched to make sure you look your very best while still appearing natural. You can expect to have several images to choose from in your online gallery.

I cannot wait to work with you!

INVESTMENT

A good headshot photographer isn't an expense - it's the best career investment you can make. Your photos should tell the story of your career; where you've been and where you want to go.

I like to keep my pricing simple, so I offer four standard collections that you may add on to as needed. I am always willing to create custom packages to meet additional needs.
