Maryland

It can be difficult to decide what to have as your session “backdrop” in the Washington DC metro area. What kind of feeling are you going for? Wineries, barns, parks, rivers, historic downtowns, mansions & plantations, memorials and monuments – there are literally thousands of locations both inside the Beltway as well as far beyond for just about everyone!

Your outdoor session is just that, *yours*, so I would love for you to recommend the location. However, many Clients want suggestions for outdoor locations, and of course I want to provide you with many options, and the possibilities are endless – if you've had your eye on a location just let me know, I'd love to add it to my growing list!

If you are looking for location suggestions in [DC](#), [Maryland](#) or [Virginia](#), please see our other Outdoor Session Recommendation Lists.
