

Editing

Every image we deliver is edited (or touched up) in Photoshop with Standard Post Production. This involves color correction, exposure adjustment, selective black and white processing, clarity adjustments, tone-mapping, and other corrections. In addition, this includes blemish and stray-hair removal, as well as softening/smoothing of some lines. There is no extra cost for this service.

Selected Advanced Post Production Editing Prices

Advanced Post Production is anything that requires work over the Standard Editing described above. This includes brace removal, "head swapping", removal of entire objects or people from the scene, changing the size and shape of body parts or other objects in the scene, adding objects or people to a scene, or hand coloring. I charge \$10-\$75 per image for most Advanced Post Production, as the time required is dependent on the complexity of the individual project.

Add Text - \$10 per image
Remove Braces - \$10 per person per image
Add Graphics - \$20 per image
Add Fire - \$20 per image
Head Swapping - \$20 per image
Background or Sky Change - \$20 per image
